DATASTOR.IO

Trusted data protection and recovery at scale.

A fully managed Commvault environment in the cloud. Built on Commvault's award-winning platform, hosted in AWS, and run end to end by KELYN's certified engineering and support teams, 100% in the U.S.

WHAT IT IS

One solution, from backup to recovery.

Datastor™ is a trusted cloud data protection solution and service, designed for the rigorous requirements of government and enterprise. It combines Commvault data protection with reliable, scalable AWS cloud storage, and is available on AWS Marketplace for simple procurement, provisioning and governance.

JETPACK-DS™

Automation built by KELYN.

Unique to Datastor, Jetpack-DS is a set of automation tools developed by KELYN for fast, accurate deployments, diligent health checks, comprehensive reports and timely alerts. Built on proven templates grounded in industry best practices, it is how AWS and Commvault come together in one trusted, streamlined service.

WHY DATASTOR

Nine reasons teams choose it.

01	Multi AWS account architectures supported
02	Use Amazon credits to procure
03	Ransomware protection
04	On-prem to cloud uplift
05	Full support for hybrid environments
06	Broad AWS product support
07	Dedicated, isolated options for highly secure environments
08	Concierge support
09	Fully managed options available

OFFERINGS

Four ways to run Datastor.

CLASSIC

Datastor Classic

Run Commvault your way, with the KELYN Co-Pilot Program. Flexible licensing and full implementation support; you provide the environment.

DAR

Datastor Assured Recovery

Ransomware protection and recovery: air-gapped, immutable storage with robust access controls, instantly scalable, with granular recovery.

DPS

Datastor Platform Services

SaaS-lite: dedicated resources, with the full control plane managed by KELYN. You configure and operate protection from a console, with Co-Pilot support.

DAB

Datastor Acceleration Bundles

Quick-start onboarding bundles that include on-site setup services and Commvault training.

AVAILABLE ON AWS MARKETPLACE

Use your existing AWS account and Amazon credits to get started.

Scan the code, or search “Datastor” on AWS Marketplace.
